

# COASTS AND COASTAL PEOPLE - SCENARIOS OF CHANGE AND RESPONSES

Egmond aan Zee, Netherlands  
27-29 June, 2005

## Land-Ocean Interactions in the Coastal Zone LOICZ II Inaugural Open Science Meeting

**Setting the stage for research on global environmental change and human dimensions in the coastal zone.**

The meeting seeks to bring together human dimension and natural scientists, decision-makers, managers and user groups in the coastal zone.

Abstracts that address one or more of the LOICZ II Themes or cross-cutting activities are solicited.

**Theme 1: Vulnerability of coastal systems and hazards to human society.**

**Theme 2: Implications of global change for coastal ecosystems and sustainable development.**

**Theme 3: Anthropogenic influences on river basin and coastal zone interactions.**

**Theme 4: Biogeochemical cycles in coastal and shelf waters.**

**Theme 5: Towards coastal system sustainability by managing land-ocean interactions.**
